Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I am a citizen who has experienced that Nature is nurturing for my whole being, my well-being and for all beings on earth. We are all part of Nature - we need to treat Nature as we want to be treated.....

I have not been to the Great Burn and still I know it as a protected place for those creatures and plants that live there. It is crucial that we not Destroy more natural habitat....

I wholeheartedly agree it is the Right and Conscious thing to do to protect and manage the Great Burn as Recommended Wilderness.

If motorized vehicles we are valuing noise over silence, fuel fumes over fresh air, intrusion over peaceful existence and hectic activity over solemn stillness, God and Life.

I only know that all water is sacred and we must do all we can to keep it clean and healthy for the fish, insects and wildlife that depend on it.

The oxygen giving from trees, plants and undisturbed soil is invaluable to us all as a species and to all healthy life. It is our honor and our responsibility to care for our Home, the Earth.

Thank You for anything and everything you can do to keep this land protected from the harmful effects of motorized traffic; thank you for representing the best in us as caretakers of the wild places on our Earth and in our souls.
