Comments: The Heber wild horses need to stay where they are. I am really sick of the agricultural industry taking over MY public lands. I pay taxes for this forest and for your organization to not listen to the PUBLIC instead of a special interest group that is just trying to make money... is horrendous and should be unlawful.. Unfortunately these horses will have to suffer at the hands of your organization because you don't do the right thing- the will of the people that pay YOUR salaries. Those ranchers in Colorado and other states DONT pay your salaries. They have no right to remove these horses. This will not be the end o this matter by a longshot.
