Comments: To Whom It May Concern,
Although I am not a citizen in the area where the Heber Horses are in trouble, I AM a citizen of this great country and it IS an area where I travel frequently. It is a disgrace that our country's wild horses are being injured, shot and mismanaged. The horses do need to have birth control but NOT to be removed from the land and certainly NOT allowed to be shot or harmed. These iconic animals have accompanied mankind through wars, the building of our nation and transport, let alone companionship through life. I urge you to represent OUR country well by protecting the HEBER horses and showing the world that strength lies in true care and compassion. PLEASE let the horses remain free and let us be exemplary stewards. Thank you.
