Comments: The Heber Wild Horses and their territory should be left alone. They should NOT be confined to the small area you are considering. These horses have a right to be on this PUBLIC land. NO FENCES, NO CATTLE AND OTHER LIVESTOCK, NO GIVING WHAT THE CATTLE ASSOCIATION WANTS! These horses are NOT hurting anyone and it's time they, as well as all the other wild horses that have been removed, be left alone and put back on the lands they roamed. If tourists want to view and photograph these magnificant horses, they would create stress and over crowded areas if you confine these horses to the small area you are suggesting. Leave them alone and do what is right.
