Title:

Comments: I had commented last night but I wanted to add some comments. Horses can't read and don't know what fences are or that they have crossed into an area that they are not supposed to be. They should not be penalized because of this. Secondly I do not like the use of euthanasia for any reason except that a horse is seriously injured or has a medical condition that isn't treatable. A horse should not be euthanized because humans can't find another "area" for them. Third I have great concerns with the holding facilities. I hope that the horses have a place to get out of the weather, trees for shade and cover from wind and rain. Please don't put them out on a Mesa or some plot of land that is similar. Like I said before the management plan sounds good. With a few tweaks it will be better. And if it is followed it will be good.
