Comments: I would personally like to attest the removal of any wild horses in Heber or the state of Arizona. I solemnly believe these majestic creatures should be protected at all costs. They are not hurting anyone. Let me repeat that. they are not hurting anyone or anything. I personally believe the area is overpopulated with humans and are taking over their rightful Land to be present. Please we must protect these beautiful wild horses at all costs. These are gods creatures. Leave them alone. Let them be. Let them live. I will do whatever it takes to protect these wild horses please contact me at anytime.
