Comments: The Mission Ridge expansion is a way to keep Mission Ridge a viable community asset for years to come. So many small day use ski areas in North America have languished or closed all together.

The project has been carefully thought out over the course of many years taking into account and mitigating environmental and wildlife concerns.

We are very lucky to have ownership that has reinvested all profits back into Mission Ridge and thus back into our community. The economic impact of this project during construction and ultimately when complete will be huge for our region.

I wish Mission Ridge the best of luck in completing this expansion.
