Comments: I think we need to stop livestock grazing on public lands. Ranchers always ruin public land and profits from basically free grazing. They eat same thing as wildlife and the horses. Leave the horses and get rid of the livestock. Additionally, I believe in birth control for the mares. Dart them with birth control but do not sterilize them. Sterilization is traumatic to the horses and many do not make. Provide water and assist with feed. These are living creatures that deserve to be free.
