Comments: I am very much against this proposal. Why should one group ( Skiers) get exclusive rights to our state and federal lands. This land is right in the middle of an wildlife corridor. The forest service did a wildlife study up there about 15 years ago. There are why to many down sides to this proposal. Mission Ridge is NOT a good neighbor. They always promise things and do another. If this goes through at least make them put up a \$20 million bond so if it doesn't work out the forest can be rehabed. They have failed in the past and the county and local folks have been left to deal with it.....Thank You
