First name: Peter

Last name: Guynn

Organization:

Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

There are too many species which require large high elevation areas in the winter months rather than disturbances from loud and noxious machinery such as snowmobiles.

Allowing snowmobile use will certainly raise the number of poached wildlife and even for that alone snowmobile use must be banned over such a huge expanse like the Great Burn

Thank you

Peter Guynn

While I live much of the time in the Swan Valley I have snowcamped in the high mts of the Swan and Mission ranges and have an appreciation of the wildlife and tranquility that can be found in such settings.

There is no reason why the entire Great Burn should not be protected as wilderness

Leave it non motorized for peace and wildlife security

O

I

Thank You for your consideration
