Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

Keep it wilderness, there are plenty of other places and opportunities to ride snowmobiles in that area. Wilderness is around 2% of total land in the continental U.S. and it should be left as is. Only wilderness trails should be the main management impact.

I have helped maintain the trails in that area along with guides and packers and the forest service and partnership organizations should be looked at for management, which means no snowmobiles. Follow the wilderness act guidelines. It's value is in its untrammelled wildness.

Protect the whole thing

Roads fragment wildlife and plant habitat

Protect them all

Keep Wilderness wild

Follow the wilderness act and thank you
