Comments: Please don't sterilize the herber wild horses. It's cruel and unnecessary. Stop the cruel helicopter roundups at tax payers expense. I've read many statistical articles in defense and against and though I am not living in the west I have hiked it and I can't believe horses are endanger of overcrowding more than the cattle on the rangelands. Cattle destroy. Remove all the cattle. Put them in feedlots stop sending the horses to holding pens all over the west at tax-payers expense.
