First name: Pamela

Last name: Clausen

Organization:

Title:

Comments: Please keep the Heber wild horses free! These are our nations heritage! We value them just because of who they are. Not to make money for somebody else just to value who they are. Their beauty, their grace, teaching us about family values. So tired of having to fight for the rights of these wild horses! How come they are not valued by other organizations? Can't you just see the pure and simple beauty.
