Title:

Comments: I am absolutely 100% in support of the Mission Ridge (MR) expansion project. MR historically has been and continues to be a major contributor to the greater Wenatchee Valley economic vitality. For this to continue, changes are required in order for the resort to remain open and hopefully thrive for the foreseeable future. Please ignore the inevitable "not in my backyard" comments and especially opposing viewpoints originating outside of our local area, e.g. Puget Sound based activist organizations. MR is a local treasure and the local community voice should be given the highest priority.
