Comments:

Hi my name is Sarah Bitsinnie. I love animals. I heart goes out to the horses that will be rounded-up here in Arizona. There got to be other solution to prevent these horses from being round-up. I afraid of the families that will be broken-up among the horses, abuse of the horses from being round-up in the process and after they are round-up. What will become of them after their freedom are taken from the horse. I just hope the horse will not be slaughtered.

As people in this country we wake-up every morning to enjoy our freedom and even some of us mentioned this in our prayers each day. As human being we need to think about the freedom of these wild horse/burro and their families. I really hope that Arizona wild horses/burros will be left alone to live their freedom. Thank you. sb
