Title:

Comments: NEPA requires that the USFS adequately evaluate all potential environmental impacts of proposed actions. To meet this obligation, the USFS must identify and disclose to the public all foreseeable impacts of the proposed action, including direct, indirect, and cumulative impacts.

I require that any NEPA analysis of this proposed action include but not be limited to a thorough consideration of the following significant impacts of this action:

- 1) The impacts of helicopter drive trapping on the wild horses and Mexican Gray Wolves, and other wildlife;
- 2) The impacts of water/feed trapping on the wild horses and other wildlife,
