Comments: Please reconsider this idea of limiting the amount of Wild Horses in the forest. There is plenty of acres for these "God's gift to humans" to roam. The insane idea to put the Chosen Few in to 21 acres will not leave the horses wild!!! Who gives those in charge of the BLM the right to reign over life and death of the wild life! Shouldn't this be put before the citizens to cast their vote. What harm are these animals causing? I would say they cause more pleasure to those who actually catch a glimpse of them! The ranchers that complain should graze their animals in a state that provides better grazing. LEAVE THE WILD HORSES ALONE!! They are part of the heritage/legacy of ARIZONA!!
