Title:

Comments: This is absolutely unacceptable. It is also without common sense or in blatant violation of animal welfare legislation, which your state is bound by. It is also obviously not feasible to capture and remove wild horses from a large area to contain them in a tiny space. This plan is a disgrace to yourselves and a disgrace to America. Your short term profit incentive to take away the homeland of the American mustang to intensively graze and ruin the land with beef cattle is a disgrace to America. It is rapidly increasing documented and recognized how cheap meat production is decimating the environment, and creating the global climate change crisis we are in. But you think you have the right to continue this and rob America's iconic mustang of it's very homeland in your process of avarice and global destruction? Shame in you forever.
