Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I have been recreating and backpacking in Montana for 20 years and love this roadless area. My family and I have spent many days enjoying the peace and quiet of the Great Burn. My children were young when introduced to the Great Burn and we observed everything from birds to bear cubs climbing a tree! This solitude was broken once when we could hear motorbikes in the distance along the edge of the Great Burn. They echoed long after the riders were gone and scared the animals away. It went from magical to lonely with the wildlife hiding from the noise. Please DO NOT allow this roadless area to become motorized. There are plenty of other areas with roads and trails for motorized recreation vehicles. Thank you for considering my point of view.

please see my other text.

The Great Burn should not allow any motorized vehicles!

It should remain non-motorized to secure a place apart for wildlife that is not desecrated by human pollution and machines.

.

.

Thank you very much for taking the time to read my point of view!
