Title:

Comments: The Forest Service should continue to protect the entire 151,874-acre Hoodoo Roadless Area as Recommended Wilderness in the revised forest plan.

The Forest Service should not allow snowmobile use in any Recommended Wilderness Areas. This use is not compatible with protecting wilderness characteristics or potential for designation within the National Wilderness Preservation System.

Only the Clearwater portion of the Forest currently has a winter travel plan. The revised forest plan should include a commitment to begin winter travel planning within 3 years on the Nez Perce portion of the forest - the Moose Creek, Salmon River, and Red River Ranger Districts.
