Comments: As a former 9 year resident of Rico, and a current close neighbor in Telluride, I high recommend and support all three Rico Trail Alliance projects. Most importantly this is a safety issue. There are a LOT of mountain bikers on the road, because there is not a trail connecting the two areas. This would also open up access to more rideable terrain for families and residents of Rico that can't climb the other trails because of the technical and endurance aspects. Economically this will also be a great opportunity for Rico.
