Comments: So I have property in Heber...& my family (5 generations now, that have enjoyed time at our property) use to enjoy watching Antelope, Deer & Elk come in for water...but now we don't get to see any...& when I take my kids hiking we have to navigate Horse landmines & be ever vigilant that we don't get too close to any of the Horses...as much as I love the outdoors & seeing wildlife, there must be BALANCE, & as someone that's seen 3 decades of change on the rim, I feel that the Horses have disrupted the very balance of nature...I don't wanna see them necessarily killed or sterilized, but I would like to see the population reduced to a manageable size.
