Comments: In regard to the Tonto National Forest revised management plan there are several Key points you should include. Designate all Inventoried Roadless Areas as non-motorized; Manage Recommended Wilderness as true wilderness in order to preserve their changes for future designation; Include an objective that removes all unnecessary roads over the life of the forest plan; and Establish standards that truly protects fish and wildlife, and restores and connect their habitat.

It is imperative that we protect our wild lands. We the public demand it.

Thank you,
