Comments: It's time we were better stewards for the environment and the voiceless that depend upon it. Do the right thing, and you know what that is. The Tonto National Forest is home to 19 threatened and endangered species, and 50 species of conservation concern. Of course, the Forest Service under the Trump administration favors grazing, mining, logging and motorized wreckreation to the detriment of numerous fish and wildlife species. Inventoried Roadless Areas and even the few places recommended for wilderness protection will be vulnerable to off-road vehicles.
