Title:

Comments: The Tonto National Forest is home to 19 threatened and endangered species, and 50 species of conservation concern. The Forest Service should:

Designate all Inventoried Roadless Areas as non-motorized;

Manage Recommended Wilderness as true wilderness in order to preserve their changes for future designation;

Include an objective that removes all unnecessary roads over the life of the forest plan; and

Establish standards that truly protects fish and wildlife, and restores and connect their habitat.
