Comments: Please update the Tonto National Forest Plan Revision #51592 to:

1. Designate all Inventoried Roadless Areas as non-motorized;
2. Manage Recommended Wilderness as true wilderness in order to preserve their changes for future designation;
3. Include an objective that removes all unnecessary roads over the life of the forest plan; and
4. Establish standards that truly protects fish and wildlife, and restores and connect their habitat.

This plan will decide how all aspects of the Tonto's 2.8 million acres of forests, deserts, rivers, lakes and recreation areas will be managed for decades to come. Do not destroy it for short term financial or recreational gain while destroying it for future generations.
