Comments: The Tonto National Forest is home to 19 threatened and endangered species, and 50 species of conservation concern. It is worthy of real protection.

Please grant the Tonto the strongest protections possible.

Off road recreation disrupts animals daily lives and destroys habitat as well as being a danger to the animal's lives. Roadless areas should be designate non-motorized. No ATVs and no Jeeps or off road vehicles of any kind. Recommended Wilderness should be managed as true wilderness in order to preserve their changes for future designation;

Future plans should include getting rid of all unnecessary roads over the life of the forest plan; and standards that truly protects fish and wildlife, and restores and connect their habitat.
