Comments: Having survived multiple Near-Deaths, some things become more important than ever.

Which includes protecting this sacred Planet Earth!!

So my requests are:

- Designate all Inventoried Roadless Areas as non-motorized;
- Manage Recommended Wilderness as true wilderness in order to preserve their chances for future designation;
- Include an objective that removes all unnecessary roads over the life of the forest plan; and
- Establish standards that truly protects fish and wildlife, and restores and connect their habitat.

Thank you,
