Comments: I am disgusted with the BLM, Forest Service and everyone in charge of our wild horses and burros. They should not be cruelly rounded up, sold off and sent to slaughter. They belong on the public land and not all those freeloading ranchers who are running their cattle and sheep there. No one is being fooled by what is going on. This is an attempt to steal the land from our wild horses and burros so that tRump and the BLM and special interests like fracking, oil drilling, etc. can take place. This is morally wrong the way these horses are being treated. It has to stop.
