Comments: Dear Forest Service Management:

Tonto National Forest in AZ is beautiful and needs full protection. Please consider the following in updating your plans for the forest, including:

Designate all Inventoried Roadless Areas as non-motorized;

Manage Recommended Wilderness as true wilderness in order to preserve their chances for future designation;

Include an objective that removes all unnecessary roads over the life of the forest plan; and

Establish standards that truly protects fish and wildlife, and restores and connect their habitat.

Thank you
