Comments: We as Americans love our Wild Horses. Especially since I am from Arizona and have been to see our beautiful Heber Horses which are supposed to be protected. I know Mr Pendley is a hater of Wild Life. I find it disturbing that he is so avid on riding our Forrest of ALL WILD HORSES. I feel this man is the WRONG PERSON To be put incharge. He should be terminated.Our Heber horses are a part of Arizona and I feel that most people of Arizona do not really know what you re planning to do to their Wild Horses. It is NOT in our papers or on our part of our news to the point that people really understand the tragedy of what the U.S. Government is doing and has been doing to our Wild Life for MANY MANY YEARS but NOW HAS PUT THIS HORRIBLE plan into FAST FORWARD. The horses are an excuse for the Administration to go after because they want to make money for the ranchers and themselves and want to rip our lands apart for oil. They can only accomplish this by getting rid of our part of our American heros..the Wild Horses. Cattle ruin the land..The BLM and Forrest Service lie about that..Blame it on the Horses...The horses have been on on lands for hundreds of years and more. They do not ruin the land..The cattle do and the government...I plead with you to STOP IT..IT IS CRUEL, INHUMANE AND EVIL..
