Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

I have recreated in the Great Burn for 20 years. It is a special place and irreplaceable.

I have hiked in the Great Burn in late spring when snow was still thick in the high country. Snowmobiles would be a nuisance and danger to wildlife.

The Great Burn should be fully protected and preserved as wilderness.

There are no good reasons for allowing snowmobiles in the Great Burn. There are many other less sensitive areas available.

As important as rivers and creeks are to wilderness, they should have the highest level of protection.

The Great Burn should be thought of as irreplaceable and plans developed with this in mind.

Thanks for your consideration and work to protect the Great Burn. Later generations will also be thankful.
