Dear U.S. Forest Service,

In regard to the plan to manage the Tonto National Forest please:

Designate all Inventoried Road-less Areas as non-motorized;

Manage Recommended Wilderness as true wilderness in order to preserve their changes for future designation;

Include an objective that removes all unnecessary roads over the life of the forest plan; and

Establish standards that truly protects fish and wildlife, and restores and connect their habitat.

Thank you for your consideration of these necessary improvements.
