Comments: I love the wild horses, I actually would not be living here if it weren't for them. I've had a battle with cancer and the horses for some reason give me a sense of calm, hope and strength. Please, please don't let anything happen to them. I've bought a 2nd home here and a yearly park/forest pass to view them. Though I disagree with taking away any of their habitat, I do understand the need for some measures to keep the horses and people safe. That said why would you use barb wire in a rec site and cattle guards that are so dangerous? Wildlife/ the wild horses are amazing and add to the beauty of AZ, not to mention tourism profits (yes they are a huge draw).
