Comments: I live in Southern Arizona and the Salt River Wild Horses are a valued part of our state and heritage.

Many people flock to the river to see them.

There is NO WAY THESE HORSES are interfering with cattle, people, or destroying the land.

To even think about removing these Wild Horses is absurd and cruel. They in no way bothering anyone. We in Arizona should decide the fate of our local Wild Horses not the federal government.

We in Arizona are standing against the removal of ANY of the Salt River Wild Horses and we will fight tooth and nail to keep them safe.
