Title:

Comments: I have recently reviewed the released Nez Perce-Clearwater Forest Plan Revision Draft Environmental Impact Statement and Draft Revised Forest Plan. None of the alternatives presented reflect the management I would like to see implemented for the Hoodoo Roadless Area. Please accept these comments into the formal record.

This area has pristine wilderness character and should be preserved.

I want to see the entire 151,874-acre Hoodoo Roadless Area continue to be managed as Recommended Wilderness.

This area should not be motorized to maintain its wilderness character.

Cayuse Creek, as well as Kelly Creek and all of its forks should be recognized as Wild and Scenic.

I thank the forest planning team for their efforts in creating this forest plan, but it must be amended in order to conserve the precious Great Burn area.
