Comments: You have nearly 20,000 acres of land and cannot support the few hundred horses that are there? Yet, there are many thousands cattle grazing there. It is the cattle that are overgrazing the land, not the horses, they belong there. There is a humane form of birth control for the horses; since it is clear that the cattlemen own the government, use it, and leave the horses a small amount of peace. The cattlemen who are shooting them should be found and punished to the full extent of the law, which is probably a slap on the hand.
