Title:

Comments: The Tonto National Forest needs the strongest protections possible in this age of ecological devastation, climate crisis, and biodiversity loss - especially since it contains so many endangered and threatened species. Please designate all Inventoried Roadless Areas as non-motorized; manage recommended Wilderness as true wilderness in order to preserve their changes for future designation: include an objective that removes all unnecessary roads over the life of the forest plan; and establish standards that truly protects fish and wildlife, and restores and connect their habitat. Thank you!
