Title:

Comments: I oppose anymore rounds ups of any wild horses anywhere at anytime. Our government cannot be trusted to care for our wildlife or environment without bowing to special interests. LOOK AT THE FOREST THROUGH THE TREES! What do you think will happen to human beings after we destroy our natural environment. Leave the gift God has bestowed on us alone. There are no jobs or life on a dead planet which you ARE killing, one species, one forest, one waterway at a time. Stop this madness.
