Title:

Comments: Give the Tonto National Forest the most protection possible.

We need to protect our last few natural places from human intervention and development.

Please consider these protections for Tonto:

- Designate all Inventoried Roadless Areas as non-motorized

- Manage Recommended Wilderness as true wilderness in order to preserve their chances for future designation

- Include an objective that removes all unnecessary roads over the life of the forest plan - roads mean road kill and wildlife deaths!

- Establish standards that truly protects fish and wildlife, and restores and connect their habitat.
