Comments: The Tonto should have the strongest protections possible. We have few wild places left in this country and the current administration is attacking all it can. We must stop them and protect our wildlife and wild places.

I am asking you to designate all Inventoried Roadless Areas as non-motorized and manage Recommended Wilderness as true wilderness in order to preserve their chances for future designation. As well as include an objective that removes all unnecessary roads over the life of the forest plan and establish standards that truly protects fish and wildlife, and restores and connect their habitat.

Thank you for your time and consideration,
Eli Celli
