Comments: Hello, I have snowmobiled in the Hoodoo Pass area and the Surveyor Lake area in years past with much enjoyment. We have seen mountain goats on Landowner Mtn, they were not interested/bothered by our passing. These areas and others in the Great Burn are some of the best High Alpine Riding.

I would like to see Hoodoo(Great Burn)designated as a semi-primitive motorized area. Snowmobiles, MTN Bikes and Game Carts should be allowed. Eliminate the RWA status for Beaver Ridge, White Sands and Tom Beal. This will allow some trail management, fire management, vegetation management and access for wildlife observation.

RWA and full blown Wilderness does not preserve the area, only makes the trails deeper and severely limits the ability to manage for wildfire, weed infestations and disease/insect problems. We do not want to change the Hoodoo(Great Burn) area. Snowmobiles leave no trace when the snow melts.
