Comments: Please make sure these horses are protected after their sale if ever done because the horses sold/auctioned from BLM ARE NOT taken care of properly once ownership has transferred & amp; there is ONLY ONE MAN checking the entire east coast for possible abuse! That mother & amp; daughter who abused the horses they bought from BLM were starved to death (2) & amp; others abused with no food, water or feet were not ever shod! What/why as animals treated in such a manner & amp; they were even trainers that BLM had listed as trainers! These horses were wild, not broken or much less trained! What are these people thinking? They (mother & amp; daughter) need to go to jail!
