Last name: Leiper

Organization:

Title:

Comments: Initially called during the scoping period and left a voicemail message, conversation occurred on March 12, 2020.

Comments from Sharon Leiper:

Owns property adjacent to the project area.

1. What is proposed in the area adjacent to private properties? Does this include commercial logging?
2. In favor of creating defensible space near private property, this is needed in this area.
3. There is a strip of Forest Service between private property in the Taylor Creek area, this area needs fuels treatment and should be included in the project proposal.
