Comments: The reason for this letter is to voice my concern for revision plans for the Tonto National Forest. I believe the Forest Service should grant the Tonto National Forest the strongest protections possible, such as designating all Inventoried Roadless Areas as non-motorized; Managing Recommended Wilderness as true wilderness in order to preserve their chances for future designation; Include an objective that removes all unnecessary roads over the life of the forest plan; and establish standards which truly protects fish and wildlife and which restores their habitat.

Thank you for the opportunity to comment.
