Comments: This is a horrible plan! To let one person make this decision is deplorable. People from all over the world know about our Heber wild horses and frequently visit us.

Obviously, the goal of this plan is to eliminate this herd of horses for someone else's gain!! "Money replaces conscience, power replaces compassion, cowards kill the innocents!" This is not what the Wild & Free Roaming Horses & Burros Act of 1971 stood for.

Do studies to show how cattle have negatively impacted our environment. The Heber wild herd has the right to live without harassment!
