Title:

Comments: I support the position of the International Society for the Protection of Mustangs and Burros concerning the Heber Wild Horse Territory Plan #18916. The wild horses have been there since the law protecting wild horses was passed and they have the right to remain there without their numbers being arbitrarily diminished by deadly helicopter round ups or the administering of PZP contraceptives, both of which do not represent minimal management practices.

I do not want my tax money spent on these management practices.

Sincerely,

Kathleen Busa
