Comments: I've have a cabin in Heber & can not believe that anyone-let alone the actual people who are supposed to be protecting the Heber herd - would recommend such a death sentence for them. You haven't been the ones taking care of them, there were many volunteers who have! You all actually let the animals in your care die of thirst, because someone wasn't doing their job.

People come here & go to the forest in hopes to see them. Those people help this community thrive.

There is plenty of forest land available to sustain them without any of your so called management ideas.

These beautiful horses mean the world to me & my family. A joy that I hope I don't have to explain to my grandkids won't be taken away from us.

To whom ever has been shooting them or protecting those killers all I can say is - God knows & your judgement day will happen no matter what.
