Comments: Friends at the Forest Service:

The FS cannot remove any wild horses until they are proven "excess" by the law. Setting a number of 104 is illegal and not in compliance with the definition of "excess."

Horses should be allowed to move freely between Heber Territory and adjacent US Forest Service lands on the BMRD, which was established prior to 1971.

I do not support giving PZP, an endocrine disrupter, which causes permanent sterility within four years. It is not in compliance with the law.

Respectively submitted,

N.G. Tucher
