Comments: Incredible how this folly of the F.S. keeps being submitted again and again. Here it is yet one more time and I hope the F.S. will finally accept the public's opposition.
1. The excuse that logging is needed for safety: The F. S. already has the ability and clearance to cut down individual trees that present a danger to the public.
2. Logging would most definitely ruin the scenery of the area which is enjoyed by many people who go camping, boating, hiking, bird watching, etc.
3. Logging would hurt several at risk species of wildlife that thrive in old and mixed forests.
4. Fire fighting excuse: not valid according to many suthorities about wild fire.
5. Logging would have adverse effects on creeks and streams, and therefore affect fish.

I urge you to give consideration to my objections and those of the many other individuals and orgainizations that are against logging in the Walton Lake area.
